# INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

	Applicant's or agent's file reference  JJ-70053WO  FOR FURTHER ACT	CION See Form PCT/IPEA/416					
	International application No. International filing date						
	PCT/JP2003/016984 26 December 2003	3 (26.12.2003) 26 December 2002 (26.12.2002)					
	International Patent Classification (IPC) or national classification and IPC G06F 17/60						
ं दृष्ट	Applicant JAPAN TOBACCO INC.						
	<ol> <li>This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36.</li> </ol>						
	This REPORT consists of a total of 5 sheets, including this cover sheet.						
	3. This report is also accompanied by ANNEXES, comprising:						
	a. (sent to the applicant and to the International Bure	eau) a total of sheets, as follows:					
	sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).						
	sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box.						
	b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)) , containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the						
	Administrative Instructions).	Administrative Instructions).					
	4. This report contains indications relating to the following iter	ns:					
	Box No. I Basis of the report						
	Box No. II Priority						
	Box No. III Non-establishment of opinion with reg	ard to novelty, inventive step and industrial applicability					
	Box No. IV Lack of unity of invention						
	Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicabilit citations and explanations supporting such statement						
	Box No. VI Certain documents cited						
	Box No. VII Certain defects in the international ap	plication					
	Box No. VIII Certain observations on the internatio	nal application					
	Date of submission of the demand	Date of completion of this report					
	26 December 2003 (26.12.2003)	21 May 2004 (21.05.2004)					
	Name and mailing address of the IPEA/JP	Authorized officer					
	Facsimile No.	Telephone No.

3 and 4 cited in the international search report. The computer system for carrying out questionnaire analysis set forth in document 1 and the computer system for carrying out questionnaire reporting set forth in documents 2 to 4 belong to closely related technical fields, therefore it would be easy for a person skilled in the art to conceive of applying the feature described in documents 2 to 4, wherein external environmental information such as position information from GPS or the like—is used, to carry out the questionnaire analysis set forth in document 1.

The invention set forth in claim 19 does not involve an inventive step in the light of documents 1, 2, 3, 4 and 5 cited in the international search report. The computer system for carrying out questionnaire analysis set forth in document 1 and the computer system for carrying out questionnaire reporting set forth in documents 2 to 5 belong to closely related technical fields, therefore it would be easy for a person skilled in the art to conceive of applying the feature set forth in documents 2 to 4, wherein external environmental information such as positional information provided by a GPS or the like is used, and the invention set forth in document 5, wherein external environmental information different from positional information of a sensor or the like is used, to the computer system for carrying out questionnaire analysis set forth in document 1.

The invention set forth in claim 20 does not involve an inventive step in the light of documents 1, 2, 3, 4, 5, 6 and 7 cited in the international search report. The computer system for carrying out questionnaire analysis set forth in document 1 and the computer system for carrying out questionnaire reporting set forth in
